California Code of Regulations Title 16. Professional and Vocational Regulations Division 19. Structural Pest Control Board

ORDER OF ADOPTION

§ 1970.4. Pesticide Structural Fumigation Disclosure Requirement.

(a) The prim<u>eary</u> contractor for fumigation shall have in his or her <u>must</u> possession and shall provide to any subcontractor for fumigation an Occupant Fumigation Notice and Pesticide Disclosure form (See Form <u>number</u> 43M-48, revised 10/2022, which is hereby incorporated by reference (Rev. 5/07) at the end of this section) signed by the occupants, if any, or designated owner or owner's agent of a structure. The prime contractor for fumigation must provide to any subcontractor for fumigation a signed copy of the Occupant Fumigation Notice and Pesticide Disclosure form. The prime<u>arry</u> contractor for fumigation and the subcontractor for fumigation shall<u>must</u> retain a <u>signed</u> copy of the<u>occupants</u> fumigation notice <u>Occupant</u> Fumigation Notice and <u>Pesticide Disclosure form</u> for a period of at least three years. In the case of multiple-family dwellings-<u>multi-unit structures</u>, the owner, <u>or owner's agent</u>, manager or designated agent of the <u>building structure</u> may obtain signatures and/or verify the notification of the occupants <u>on behalf of the prime contractor</u>.

The <u>Occupant Fumigation Notice and Pesticide Disclosure</u> form <u>shallmust</u> state the name of the pest to be controlled, the <u>pesticide(s)/</u>fumigant(s) proposed to be used, the active ingredient(s) and the health cautionary statement as required under section 8538 of the code. The <u>Occupant Fumigation Notice and Pesticide Disclosure</u> form <u>shallmust</u> also state that a lethal gas (poison) will be used in the building on indicated dates and that it is unsafe to return to the building until a certification notice for reentry is posted by the licensed fumigator. The form <u>shallmust</u> also indicate that the occupant has received the prime contractor's information regarding the procedures for leaving the structure.

The properly signed form or a copy, written or electronic, thereof <u>shallmust</u> be in the possession of the licensed fumigator, <u>at the fumigation site</u>, when the fumigant is released. Such form <u>shallmust</u> be attached to and become a permanent part of the fumigation log upon completion of the fumigation.

(b) Any death or serious injury relating to pesticide application or use, whether to a worker or member of the public, shall be reported to the nearest Structural Pest Control Board office immediately.

(c) Whenever a licensee employed by a branch 2 or branch 3 registered company applies a pesticide within, around or to any structure such person shall leave in a conspicuous location a written notice identifying the common, generic or chemical name of each pesticide applied. In case of a multiple family structure, such notice may be given to the designated agent or the owner. Such pesticide identification notice may be a door hanger, invoice, billing statement or other similar written document which contains the registered company's name, address, and telephone number.

(d) All pest control operators, field representatives, applicators and employees in all branches shall comply in every respect with the requirements of section 8538 of the code. Failure to comply with section 8538 of the code is a misdemeanor and shall constitute grounds for discipline.

(e) Where notification is required under section 8538 of the code, and the premises on which the work is to be performed is a multiple family dwelling consisting of morethan 4 units, the owner/owner's agent shall receive notification and other notices shall be posted in heavily frequented, highly visible areas including, but not limited to, all mailboxes, manager's apartment, in all laundry rooms, and community rooms on all external pest control servicing. Complexes with fewer than 5 units will have each affected unit notified. Any pest control servicing done within a tenant's apartment-requires that the tenant be notified according to section 8538 of the code.

(f) A registered company which applies any pesticide within, around or to any structure shall provide to any person, within 24 hours after request therefore, the common, generic or chemical name of each pesticide applied.

Note: Authority cited: Section 8525, Business and Professions Code. Reference: Section 8505.7, 8505.13 and 8538, Business and Professions Code.

Structural Pest Control Board 16 CCR 1970.4 Order of Adoption Pesticide Application Notice Requirements

§ 1970.41 Pesticide Pre-Application Notice

In the pre-application pesticide notice, "conspicuous place" as it is used in section 8538 of the code, means heavily frequented common areas, including the on-site manager's office or unit, all multi-unit mailboxes, in all laundry rooms, and community rooms for all exterior pest control services.

Note: Authority cited: Section 8525, Business and Professions Code. Reference: Section 8525 and 8538, Business and Professions Code.

§ 1970.42 Pesticide Post-Application Notice Requirements.

(a) In addition to notification required by section 8538 of the code, whenever a licensee employed by a registered Branch 2 or Branch 3 company has applied or used a pesticide the licensee must provide a post-application pesticide notice in compliance with subdivision (b) immediately after the service visit as follows:

(1) When applied around or to the exterior of any structure, the post-application pesticide notice must be provided in writing personally to the occupant, owners, or owners' agent, or by first-class mail. Alternatively, the post-application pesticide notice may be provided via electronic mail if the occupant, owners, or owners' agent has authorized such communication method via contract or other written confirmation of such agreement.

(2) When applied to the interior of a unit within a multi-unit residential structure, the post-application pesticide notice must be provided in writing and left on the door of the unit, or within the unit in an area next to the door of the unit.

(3) When applied to the interior of a commercial, industrial, or single-unit residential structure, the notice must be provided in a manner as described in subdivision (a)(1).

(b) The post-application pesticide notice specified in (a) may be a door hanger, invoice, billing statement, or other similar written document and must include:

(1) The common, generic, or chemical name of each pesticide applied;

(2) The date of service; and

(3) The registered company's name, address, and telephone number.

(c) A registered structural pest control company which applies any pesticide within, around or to any structure must provide to any person, within 24 hours after request therefore, the common, generic or chemical name of each pesticide applied. This requirement applies to all requests made within three years of the pesticide application. Note: Authority cited: Section 8525, Business and Professions Code. Reference: Section 8505.13, 8525 and 8538, Business and Professions Code.

§ 1970.43 Reporting Death or Serious Injury.

In the event of any death or serious injury relating to a structural fumigation or pesticide application or use, whether to the owner, an employee of the registered structural pest control company, or a member of the public, a representative from the structural pest control company must, immediately upon learning of the incident, report it by telephone to both the Structural Pest Control Board office and the County Agricultural Commissioner's office in the county where the structural fumigation or pesticide application or use occurred.

Note: Authority cited: Section 8525, Business and Professions Code. Reference: Section 8525 and 8538, Business and Professions Code.
